## EDUCATION

### UNIVERSITY

Military University of Technology in Warsaw – computer science – civil studies (2021 - present)

### HIGH SCHOOL

II Liceum Ogólnokształcące im. Hetmana Jana Zamoyskiego in Lublin - **profile focused on mathematics, physics and IT.** (2018-2021)

## PROGRAMMING EXPERIENCE

### Discord bot using Python

Simple discord server bot written using Python. Few basic commands, including user interaction. Available on my GitHub.

### FiveM GTA V Server

My own GTA V server created on a multiplayer modification framework called FiveM. The entire server was hosted on a private VPS, which gave me the opportunity to smatter Linux usage and SSH/FTP protocols. Moderating this project also helped me with team-leading and community management skills, as there were people taking the role of community supports. I also worked with my friend on our own original script written in LUA. Available on my GitHub.

## CERTIFICATES

- PYTHON PROGRAMMING - 2022
- CERTIFICATE FOR ENGLISH C1 LEVEL
